I. Course Summary Descriptions

LEED Green Building

In the face of the growing demands of urban population growth, sustainable design and green building practices have increasingly taken center stage. Leadership in Energy and Environmental Design, or LEED, is the most widely used green building system in the world. Obtaining a LEED professional credential signals that an individual is a leader in environmentally friendly and sustainable design.

LEED® Green Associate v4™ Exam Prep

This self-paced course introduces key concepts and terms to prepare learners to earn their LEED Green Associate v4 accreditation. The course is divided into modules that explain LEED process, LEED certification, and the knowledge domains associated with the seven LEED rating systems in a simple and straightforward way that can be quickly and easily understood.

Learner Satisfaction: 100%
Estimated length: 14 hours
Access Time: 180 days
Credits: 1.4 IACET CEUs

II. Testimonials

The following testimonials are provided by learners that have completed courses in the LEED Green Building suite.

LEED® Green Associate v4™ Exam Prep

"For someone like myself, it's nice to gradually be exposed to new material. I've been through several certification programs, most of which had very rigorous lessons. This training module is certainly designed to help one learn using baby steps. Many thanks."
